

Mårten Blix, PhD

Email: marten.blix@ifn.se , www.martenblix.com

Date of birth: 5 Oct. 1968.

Married; two children.

Work experience

Research Institute of Industrial Economics [Institutet för Näringslivsforskning] www.ifn.se/eng (Oct 2015-), Research scholar focusing on the effects of digitalization on the economy, welfare services and the labor market. Frequent lecturer on policy issues.

Confederation of Swedish Enterprise [Svenskt Näringsliv], consultant responsible for report “Digitalization and the economy – challenges and opportunities.” 2015/04/20-10/20)

Ministry of Finance [Finansdepartementet], **Director** in the budget department (Jan 2006-April 2015), incl. some secondment & paternity leave)

- **Director** in the Structural Policies Division. Responsibilities included structural policies for growth and efficiency, as well as financial stability (Jan 2010-April 2015). Work on financial framework and the role for stabilisation policy in the Economics Department (Oct 2007-March 2008). **Director for division of total government expenditure** with a staff of about 14 persons and responsible for multiyear forecast. Responsible for the coordination of the government budget process. (Jan 2006-May 2007).

Prime Minister's Office [Statsrådsberedningen], Sweden. **Secretary** for the demographic challenge in the *Commission for the Future Challenges in Sweden*. Wrote the report “Future welfare and the ageing population” and presented it at a press-conference with comments from the Swedish Prime Minister. Also published several debate-articles and magazine articles. 2012-04-02:2013-01-15.

European Central Bank

- **Senior economist** in the Fiscal Policies Division. Commented on fiscal issues related to financial stability and fiscal sustainability in the euro area, organised workshop and monitored fiscal developments in some EU countries (Denmark, Sweden, UK) (April 2008-Feb 2009).

Ministry of Industry, Communications and Employment [Näringsdepartementet] (*March 2004-Dec 2005*)

- **Director** of Secretariat for Research and Analysis with a staff of about 14 persons. Responsible for covering wide ranging issues for growth and the labour market, such as outsourcing, productivity growth and effects from trade.

Monetary Policy Department, Sveriges Riksbank (*Aug. 1997-February 2004*)

- **Adviser** to the chief economist on monetary policy communication (Aug 2003-Feb 2004).
- **Head** of the model division from June 2000. The division's main responsibility was using a macroeconomic simulation model in the policy process to support the forecasting round for the *Inflation Reports*.
- **Head** of the division for international macro analysis from Aug 1999. The division's main responsibility was to forecast conjunctural developments in the OECD area as an input to the Riksbank's inflation report. Another responsibility was to contribute with briefings for the Governor and Deputy Governor before their trips to international organisations.
- Economist in the division for Price Analysis, until July 1999. Responsibility for forecasting Swedish wages as well as assessing indirect taxes and underlying inflation. Developed (with Peter Sellin) a method to show the uncertainty and risk

in the inflation forecast based on assessments in important macro variables, used to publish the “fan-charts” in the Swedish inflation reports since 1998:Q2.

Education

Stockholm University (1993-97)

Ph.D. in economics on 17 September 1997; title of dissertation: "Rational expectations and regime shifts in macroeconometrics" with Professor Helmut Lütkepohl as the faculty opponent. Provides new analytical results about models with stochastic shifts in regime.

London School of Economics (1989-93)

- M.Sc. in Econometrics & Mathematical Economics.
- B.Sc. in Economics. Primarily Econometrics and Industrial Organisation.

American International School, Vienna, Austria (1982-87)

International Baccalaureate (IB) diploma. Award for best mathematics student 1987.
